THE SEA GYPSIES

FOR YOUR EYES ONLY

CAPTAIN'S LOG

Logline

WHEN A FINANCIALLY DESPERATE FISHING TRAWLER ENTERS THE G-P-Z, A FORBIDDEN UNDERSEA "AREA 51," ITS CREW AWAKENS A FORGOTTEN NIKOLA TESLA-ERA ROBOTIC GUARDIAN AND BECOMES CAUGHT IN A DESPERATE BATTLE WITH AN ANCIENT, HIGHLY INTELLIGENT SPECIES FROM THE OCEAN DEPTHS WHOSE STRUGGLE FOR SURVIVAL COULD DECIDE THE FATE OF HUMANITY.

Poster Design

Introduction

FOR YOUR EYES ONLY

International Hydrographic Commission
Washington DC

MEMORANDUM

TO: Interested Parties
FROM: Creative Oversight Committee
SUBJECT: Introduction to THE SEA GYPSIES

While much has been well chronicled regarding the fishing trawler Callisto and its incursion into the forbidden G-P-Z, (Gyre Pelagic Zone), an internationally protected ocean territory, all of it has been deemed highly classified and under the jurisdiction of the global affiliated International Hydrographic Society and its ruling commission.

However, due to a recent security breach, photographs and documents were taken from the actual captain's log of The Callisto and have been made public. Although some contain approved redactions, others might be subject to pure speculation of various alternative hypotheses regarding what has been colloquially known as *"The Sea Gypsies."*

The information contained herewith was provided from the investigation of the crew, the ship's telemetry database and other information administered from various military and civilian sources.

As you read further, the material presented will give further insight and context related to the narrative and corresponding events regarding The Sea Gypsies.

Respectfully,
Perry Manning
Senior Documentarian and Wordsmith
International Hydrographic Commission

Captain Willard Marius

The Story

DAY ONE:
0500: The crew checks in: Jonas Williams- First mate, Gary Meadows - Chief engineer, Aggie Marius - Navigator, "Flash" Gordon - "Greenhorn" and Dylan Cartwright - (NO COMMENT!) Departed Port of Hamden. Weather looks good with slight easterly wind. Moderate seas.
Supplemental: I never wanted Aggie on this trip! It's too risky.

2100: Jonas and Aggie raise formal protest against my choice to navigate into the G-P-Z. For the record, I acknowledge the dissent and as captain overruled them. It is solely my decision.
Supplemental: "Flash" has an old ham radio onboard and entertained us with a call to the International Space Station. I never knew you could do that. I like this kid.

DAY TWO:
0700: The Callisto passes the G-P-Z warning buoy. Crew seems anxious but no further protests are lodged. Aggie plots new navigational charts through the heart of the zone. Gary reports both engines are at peak optimal performance. I hope so.

0730: Reached new fishing ground and Jonas sets the gear for a first run. New greenhorn "Flash" is a quick learner. Dylan is Dylan but he seems motivated enough, especially with his money invested in the ship.
Supplemental: I never understood what Aggie ever saw in this guy.

0830: Hauled first nets. Not great but promising. Set new course to venture further into the zone. Wind speed has picked up slightly, seas are moderate.

1330: The first haul is beyond expectations. The nets are so weighted down with fish they're dragging across the bottom, creating a hazard. We'll need to adjust the depth, but the storage tanks are filling fast with more fish than we ever imagined.

1530: There was a problem with the latest haul, and one of the cranes almost seized before off-loading from excessive weight.

THE SEA GYPSIES

The Story

Buried in the catch was some sort of heavy rusted old diving suit, at least that's what it looks like. Flash says it's not hollow and is some sort of "mechanical man." He thinks it's actually a type of robot. Gary propped it on the deck as some sort of good luck charm.

1700: The storage tanks are almost filled to capacity! We will anchor for the night and top off the tanks with another run tomorrow morning before heading back to port.

1745: A thick mist is rising from the ocean but not quite a fog... Bad news: Engines have seized. Gary reports they might have thrown a prop from all the heavy load we were trawling.

1820: The seas around the Callisto have been raging, tossing the ship about very violently! Since this area was never officially mapped, Aggie thinks it might be an unknown underwater volcano erupting. Given our current position in the G-P-Z I am willing to risk not sending out distress call. For now.

2000: Chief Engineer Gary Meadows was struck by a piece of debris and injured. Flash goes topside to assist him. The ocean waves have now turned into large, towering geysers, that are buffeting the ship.
SUPPLEMENTAL: I WILL MAKE ENTRIES AS DEEMED POSSIBLE BUT GIVEN THE SITUATION I'M NOT SURE FOR HOW MUCH LONGER.

-With the engines not operational we are running on backup power. Injuries to Chief Engineer not life-threatening.

-Aggie was knocked overboard into the sea and without any survival gear. No one onboard has acknowledged who pulled her to safety. Aggie has confirmed that the water was extremely warm, too warm for anything other than a volcanic eruption would produce. At least that's the theory.
Note: Our mechanical man was found near the starboard deck where Aggie was safely brought aboard. "Flash" has christened him "Nikki" after the inventor Nikola Tesla. I guess whatever you call it, "he" is a good luck charm, after all.

THE SEA GYPSIES

-The seas started to churn again, pummeling the ship with huge cascading waves across the decks. I'm not sure how the ship did not capsize, especially given we are immobile with no engine power. There are many weird glowing orbs in the water surrounding the ship. They look a bit like "eyes."

-The "eyes" have disappeared below the surface, and we are under attack once again! Something is coordinating these creatures and seems there is an intelligence behind the effort. Jonas said it's the work of the legendary "Sea Gypsies." I never thought he was this superstitious!

Note: "Nikki" is missing, probably went overboard in the chaos, so there goes our good luck charm when we need it most.

-Undetermined brilliant blue lights are moving back and forth under the Callisto. It looks like undersea lightning storm under the water. I think it's that mechanical "Nikki" operating underwater. I'm not sure how?

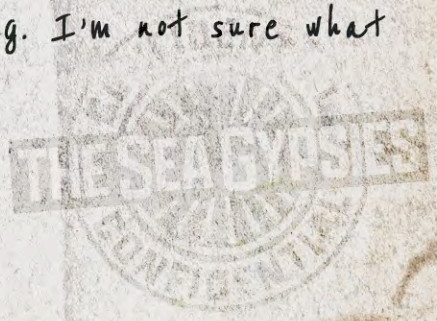

-With the environmental conditions so compromised, visibility is extremely difficult. It looks like a large and somewhat luminous creature has found its way on board. It doesn't look like anything I've ever seen.
It's heading for the bridge.

-Halfway across the deck, a large flash of light illuminated the ship and struck the creature in a brilliant display of electrical energy. Nikki stands before it and fires off what looks like some sort of electrical death ray until the other creatures retreat. What the hell is this robot doing?

-THE BRIDGE IS IN SHAMBLES.
THE SITUATION IS DIRE!

-Somehow Nikki established an underwater perimeter defense against the "Sea Gypsies" but by the looks of it, he's weakening in power.
The engines are not working and the lights are fading. I'm not sure what else we can do.

Time is running out for all of us.
THIS IS PROBABLY MY LAST ENTRY....

THE SEA GYPSIES

"Nikki"

IT'S ONE THING TO DREAM OF THE FUTURE, IT'S ANOTHER TO MAKE IT A REALITY.

CENTRAL TO THE STORY OF THE SEA GYPSIES IS "NIKKI," AN UNDERSEA AUTOMATON BASED ON THE ACTUAL TECHNICAL ACCOMPLISHMENTS OF NIKOLA TESLA, THE VISIONARY ENGINEER AND ENIGMATIC INVENTOR OF THE FOLLOWING:

1893 - HIGH FREQUENCY LIGHTING
1896 - WIRELESS COMMUNICATION
1898 - REMOTE CONTROL
1901 - WIRELESS POWER TRANSMISSION/WARDENCLYFFE TOWER
1915 - TURBINE POWER
1918 - TELE-MECHANICKA AUTOMATON
1934 - TELEFORCE "DEATH RAY"

IT WAS IMPORTANT THAT MY CONCEPT ART AND DESIGN FOR "NIKKI" REFLECTED IN THE ACTUAL FUNCTIONALITY OF WHAT COULD HAVE BEEN POSSIBLE AT THE TIME. I WANTED THE VISUAL SENSIBILITY OF "NIKKI" TO BE ORIGINAL YET OBVIOUSLY EVOKE ITS PURPOSE AND OBJECTIVE. IT IS A TECHNOLOGICAL WONDER, INCORPORATING ALL THE POSSIBILITIES OF NIKOLA TESLA'S ACHIEVEMENTS, SHOULD HE HAVE BEEN GIVEN THE OPPORTUNITY TO BUILD A GENUINE "NIKKI." ON THE OTHER HAND, MAYBE HE DID.

NIKOLA TESLA DIED ALONE IN A HOTEL ROOM AND ALL HIS DOCUMENTS, FILES AND EQUIPMENT WERE SEIZED AND CONFISCATED BY THE U.S. GOVERNMENT, MOST NEVER TO SEE THE LIGHT OF DAY, EVER AGAIN. SINCE THEN, MANY PRE-CONCEIVED NOTIONS AND CONSPIRACY THEORIES CONTINUE TO FUEL THE IMAGINATION.

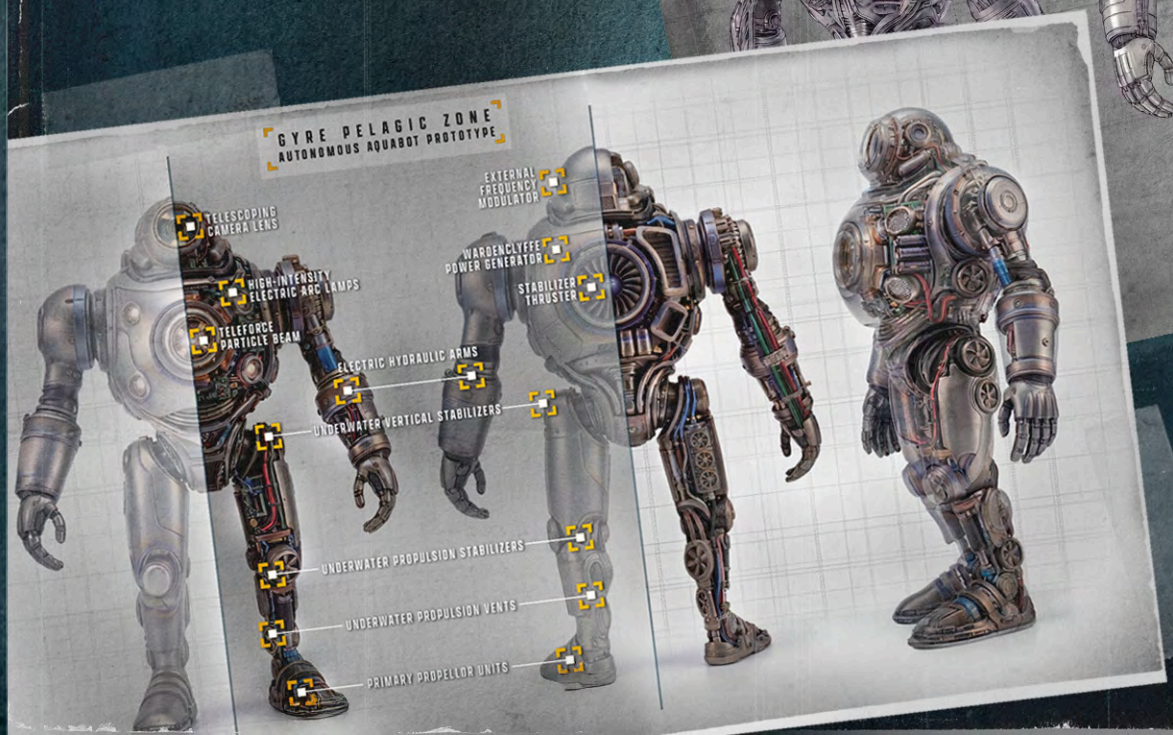

HOWEVER, IN THE DEEPEST FATHOMS OF THE DARKEST WATERS OF THE G-P-Z, THERE LIES THE TRUTH.

The Sea Gypsies

INTERNATIONAL HYDROGRAPHIC COMMISSION

CONFIDENTIAL — THE SEA GYPSIES — CONFIDENTIAL

TO: Interested Parties
FROM: Science and Defense Committee
SUBJECT: THE SEA GYPSIES

• The Sea Gypsies are a completely different race of being — not descended from land mammals or hominids, but from an underwater genus whose existence was unknown to surface civilization until the early 20th century.

• As certain animals made the pilgrimage from sea to land, the progenitors of the Sea Gypsies reversed that journey — returning to the ocean to develop and evolve in deep isolation.

• They survived every mass extinction in Earth's history, including the meteoric strike that ended the dinosaurs, flourishing undisturbed while surface civilizations rose and collapsed above them.

• The Sea Gypsies live in a balanced and harmonious relationship with the Earth — stewards of a world the surface has never acknowledged.

• The zone designated G-P-Z has served as their sovereign territory throughout recorded and pre-recorded history. Every vessel lost to the Graveyard of the Atlantic entered their domain. G-P-Z, spoken fast, becomes "Gypsies." The zone was always named for what lived inside it.

• Among sailors, the name took on a life of its own. "Sea Gypsies" passed into maritime superstition and folklore — a warning whispered in port about the waters that swallow ships whole. What generations of sailors dismissed as legend was, in fact, an accurate account of what waits below.

• The Sea Gypsies have begun to respond to encroaching surface activity: industrial pollutants, undersea cables, and environmental hazards are severely degrading their ecosystem.

• They possess a singular capability: by heating sufficient ocean volume through undersea volcanic geothermal vents and directing those currents through the G-P-Z and the Gulf Stream, they can carry super-heated water toward the frozen Arctic — with consequences for the surface world that would be irreversible.

• It is recommended that the concerns of the Sea Gypsies be formally addressed and that the "Aquabot" program be completed as initiated.

Very truly yours,
Dr. Jensen Mohorovicic
Senior Administrator
International Hydrographic Commission

FOR YOUR EYES ONLY

The Sea Gypsies

ON BOARD THE CALLISTO

SEA GYPSY QUEEN

KING SEA GYPSY

Tone and Style

THE STORY OF THE SEA GYPSIES IS A SCI-FI ADVENTURE THAT TAKES PLACE IN A LONG TERRIFYING TIME AT SEA, FROM A PLEASANT EARLY DAWN AND SUN-DRENCHED AFTERNOON INTO A LONG HARROWING EVENING IN WHICH TIME MOVES MUCH SLOWER THAN HOURS ON A CLOCK MAY DICTATE.

AS THE CALLISTO SETS SAIL, THE WATER IS TRANQUIL, WELCOMING THE SHIP AS IT MAKES ITS WAY THROUGH THE HARBOR AND INTO A BLUE, PLACID OCEAN. BY THE NEXT DAWN, BILLOWING CLOUDS DRENCHED IN GOLDEN AMBER AND FIERY ORANGE GREET THE CALLISTO AS IT PASSES INTO THE RESTRICTED TERRITORY OF THE G-P-Z, GIVING A FALSE SENSE OF SERENITY TO WHAT LIES AHEAD.

AS NIGHT DESCENDS, THE LIGHTING IS MORE ARTIFICIAL SINCE THE CALLISTO ITSELF BECOMES THE MAIN SOURCE OF ILLUMINATION. THE SHIP AND SURROUNDING OCEANS ARE FILLED WITH DARK SHADOWS, FURTHERING A SENSE OF THE MYSTERIOUS THAT ULTIMATELY GIVES WAY TO CONFUSION AND URGENCY. THE PERIMETER LIGHTS OF THE CALLISTO AND THE ELECTRICAL ARC LAMPS FROM THE AQUABOT NIKKI ARE IN SHARP CONTRAST TO THE NATURAL BIOLUMINESCENCE OF THE SEA GYPSIES

THE ATMOSPHERE IS SUFFOCATING AND THICK, ALMOST TACTILE TO THE TOUCH. EVEN IN THE WIDE-OPEN OCEAN, THERE IS A FEELING OF INTENSE CLAUSTROPHOBIA THROUGHOUT.

IT IS A STORY OF THE LIGHT VERSUS THE DARK, OF NATURE VERSUS SCIENCE AND QUESTIONS THE UNDERSTANDING OF THE UNKNOWN.

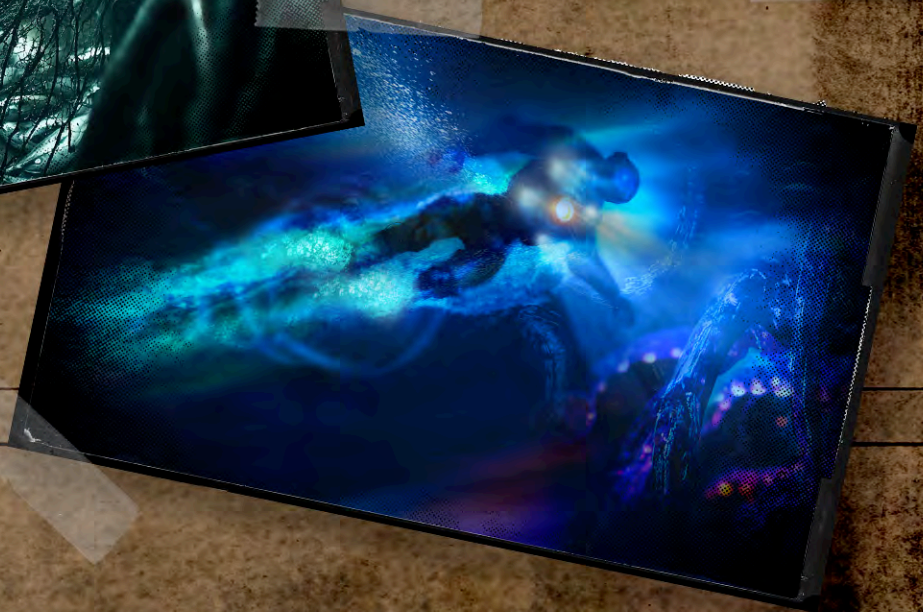

Tone and Style

Story Appeal

THE SEA GYPSIES COMBINES SCIENCE FICTION ADVENTURE, MARITIME MYSTERY, AND ORIGINAL MYTHOLOGY WITHIN ONE OF EARTH'S LAST TRULY UNEXPLORED FRONTIERS.

AT ITS CENTER IS THE G-P-Z, A FORBIDDEN REGION OF THE NORTH ATLANTIC WHERE FORGOTTEN TECHNOLOGY, HIDDEN HISTORY, AND AN ANCIENT CIVILIZATION CONVERGE BENEATH THE OCEAN'S SURFACE.

INSPIRED BY SEAFARING FOLKLORE, THE ENDURING MYSTERIES OF THE OCEAN, AND NIKOLA TESLA'S REVOLUTIONARY CONCEPTS, THE SCREENPLAY CREATES A WORLD THAT FEELS BOTH IMAGINATIVE AND BELIEVABLE. DISTINCTIVE VISUAL ELEMENTS SUCH AS THE G-P-Z WARNING BUOY, NIKKI, THE CALLISTO, AND THE SEA GYPSIES THEMSELVES, REINFORCE ITS UNIQUE IDENTITY.

COMPARABLE FILMS –

THE ABYSS (1989): OCEANIC MYSTERY, ENSEMBLE SURVIVAL, AND FIRST CONTACT BENEATH THE SEA.

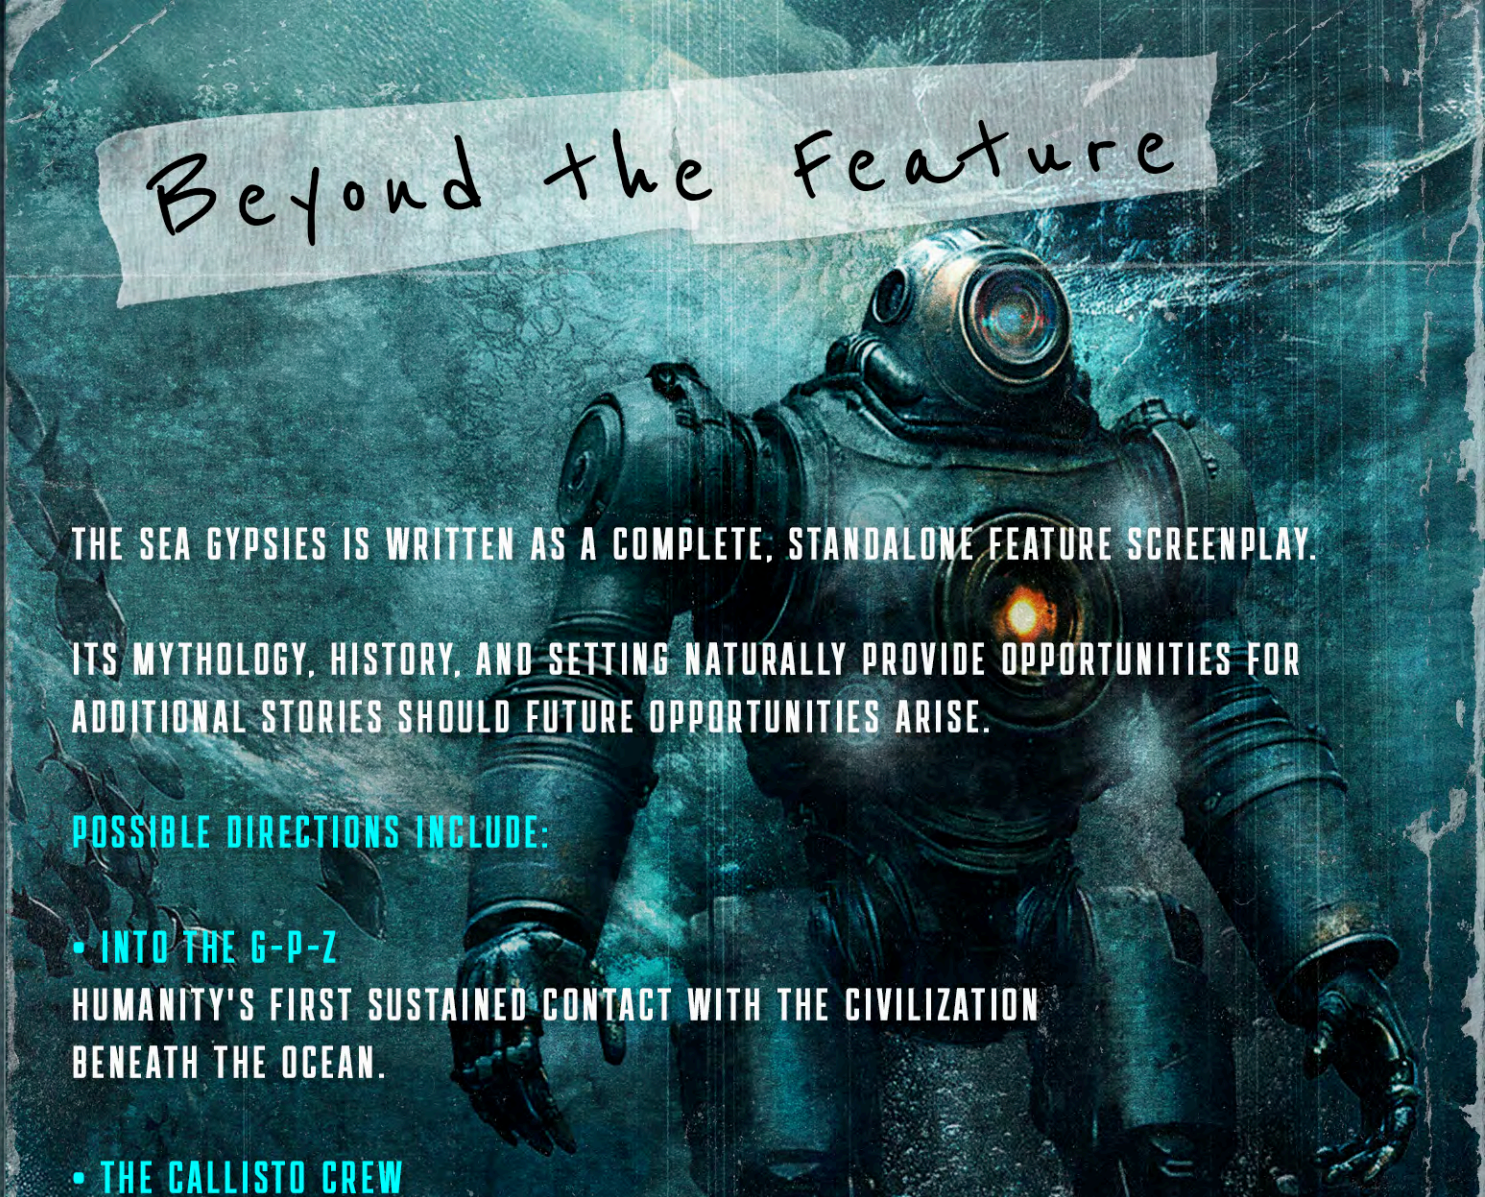

ARRIVAL (2016): THOUGHTFUL SPECULATIVE SCIENCE FICTION ROOTED IN MYSTERY AND EMOTIONAL CONSEQUENCE.

STARGATE (1994): ANCIENT CIVILIZATIONS, HIDDEN WORLDS, AND EXPANSIVE MYTHOLOGY.

RATHER THAN COMBINING THESE FILMS, THE SEA GYPSIES DRAWS INSPIRATION FROM EACH WHILE PRESENTING AN ORIGINAL STORY CENTERED ON THE UNEXPLORED OCEAN, NIKOLA TESLA'S REVOLUTIONARY CONCEPTS, AND A CIVILIZATION HIDDEN BENEATH THE SEA.

Beyond the Feature

THE SEA GYPSIES IS WRITTEN AS A COMPLETE, STANDALONE FEATURE SCREENPLAY.

ITS MYTHOLOGY, HISTORY, AND SETTING NATURALLY PROVIDE OPPORTUNITIES FOR ADDITIONAL STORIES SHOULD FUTURE OPPORTUNITIES ARISE.

POSSIBLE DIRECTIONS INCLUDE:

- **INTO THE G-P-Z**
  HUMANITY'S FIRST SUSTAINED CONTACT WITH THE CIVILIZATION BENEATH THE OCEAN.

- **THE CALLISTO CREW**
  STORIES EXPLORING THE LIVES THAT ULTIMATELY BROUGHT SIX STRANGERS TOGETHER ABOARD THE SAME VESSEL.

- **THE NIKOLA TESLA FILES**
  A HISTORICAL THRILLER EXAMINING TESLA'S FINAL YEARS AND THE ORIGINS OF THE MYSTERIOUS TECHNOLOGY HIDDEN WITHIN THE G-P-Z.

- **NIKKI**
  AN ILLUSTRATED STORY EXPLORING THE CREATION AND CENTURY-LONG MISSION OF THE ROBOTIC GUARDIAN.

THE PROPERTY'S DISTINCTIVE WORLD-BUILDING, TECHNOLOGY, CREATURES, AND MYTHOLOGY CREATE OPPORTUNITIES FOR MULTIPLE MEDIA PLATFORMS, PUBLISHING, GAMING, ANIMATION, LICENSING, AND MERCHANDISE.

About the Creator

SAMUEL MANDRAGONA IS A SIX-TIME EMMY AWARD-WINNING CREATIVE DIRECTOR AND DESIGNER WHOSE WORK HAS EARNED INDUSTRY RECOGNITION ACROSS BROADCAST AND DIGITAL DESIGN. AS A SCREENWRITER, HE WAS A QUARTERFINALIST IN THE AMERICAN ZOETROPE SCREENPLAY CONTEST FOR "FOURTEEN MINUTES."

FOR THE SEA GYPSIES, SAMUEL COMPLEMENTED THE SCREENPLAY WITH CONCEPT ART, PRODUCTION DESIGN, AND VISUAL DEVELOPMENT THAT HELP DEFINE THE PROJECT'S DISTINCTIVE AESTHETIC.

TOGETHER, THE SCREENPLAY AND SUPPORTING ARTWORK PRESENT A COHESIVE VISION OF THE PROJECT WHILE KEEPING THE STORY AT ITS CENTER.

SAMUEL HAS DEVELOPED A PORTFOLIO OF ORIGINAL FEATURE SCREENPLAYS AND NARRATIVE PROPERTIES, WITH ADDITIONAL PROJECTS AVAILABLE THROUGH ARTIFEXSCRIPTS.COM

Why This Story Now?

HUMANITY KNOWS MORE ABOUT THE SURFACE OF MARS
THAN MUCH OF EARTH'S OWN OCEAN FLOOR.

ADVANCES IN DEEP-SEA ROBOTICS, AUTONOMOUS EXPLORATION,
AND MARINE SCIENCE CONTINUE TO REVEAL
HOW MUCH OF OUR PLANET REMAINS UNEXPLORED.

THE SEA GYPSIES BUILDS UPON THAT SENSE OF DISCOVERY BY IMAGINING
WHAT MIGHT EXIST BEYOND THE LIMITS OF THAT UNDERSTANDING.

PUBLIC FASCINATION WITH NIKOLA TESLA, MARITIME FOLKLORE,
HIDDEN HISTORIES, AND UNEXPLAINED PHENOMENA CONTINUES TO
INSPIRE BOOKS, DOCUMENTARIES, AND POPULAR CULTURE.

THESE ENDURING IDEAS PROVIDE A FOUNDATION
FOR AN ORIGINAL SCIENCE FICTION ADVENTURE.

RATHER THAN REVISITING ESTABLISHED MYTHOLOGY,
THE SEA GYPSIES INTRODUCES AN ORIGINAL WORLD
GROUNDED IN SCIENTIFIC POSSIBILITY, MARITIME HISTORY,
AND THE ENDURING MYSTERIES OF THE SEA.

THE SCREENPLAY STANDS ON ITS OWN AS A COMPLETE STORY
WHILE PRESENTING A SETTING WITH THE DEPTH AND HISTORY
TO SUPPORT FUTURE STORIES SHOULD THE OPPORTUNITY ARISE.
